INDEX TO VOLUME XCIX, 2004

AUTHOR INDEX

Albizane, A.	Extraction of Proteins from Chrome Shavings with Sodium Hydroxide and Reuse of Chromium in theTanning Process	16
Aravindhan R.	Mixed Metal Complexes of Zirconium: A Step Toward Reducing Usage of Chromium in Tanning	110
Aravindhan, R.	A Bio-Driven Lime and Pickle Free Tanning Paves Way for Greener Garment Leather Production	53
Aravindhan, R.	Bioaccumulation Route for Secured Recovery and Recoup of Chromium from Tannery Wastewaters	197
Ayyasamy, T.	Development of an Integrated Wet Finishing Process: Manufacture of Garment Leathers	367
Azzi, M.	Extraction of Proteins from Chrome Shavings with Sodium Hydroxide and Reuse of Chromium in theTanning Process	16
Bhattacharya, P.	How Much Cr(VI) Is Formed During Extraction of Leather with Phosphate Buffer	119
Boehn, R.	The Physico-Chemical Principles of Water-Based Degreasing of Animal Skins	151
Bouhria, M.	Extraction of Proteins from Chrome Shavings with Sodium Hydroxide and Reuse of Chromium in the Tanning Process	16
Breitsamer, M.	Emission from Automotive Leather - State of the Art and a Critical Foresight	416
Brown, E. M.	Introduction of the John Arthur Wilson Memorial Lecturer	321
Brown, E. M.	The John Arthur Wilson Memorial Lecture Plaque - Presentation, Acceptance, and Comments	351
Brown, E. M.	Collagen Processing	164
Brown, E. M.	Molecular Weight Distribution and Functional Properties of Enzymatically Modified Commercial and Experimental Gelatins	129
Brown, E. M.	Potential Interactions of the C-Terminal Telopeptides of Bovine Type I Collagen	376
Burcham, L. J.	Diffusion and Thermodynamic Behavior of Insect Repellant and Suntan Lotion in Automotive Leather Coatings	211
Chakraborty R.	Optimization of Hydrolysis of Chrome Shavings by an Enzyme from P. lilacinus	103
Chakraborty, R.	How Much Cr(VI) Is Formed During Extraction of Leather with Phosphate Buffer	119
Chandra Babu, N. K.	Instrumental Assessment of Levelness of Dyed Materials	231
Chandrasekar, R.	A Simple and Effective Method for Cr(VI) Analysis in Dyed Leather	12
Chandrasekaran, B. A	Bio-Driven Lime and Pickle Free Tanning Paves Way for Greener Garment Leather Production	53
Chandresekaran, B.	Development of an Integrated Wet Finishing Process: Manufacture of Garment Leathers	367
Chaudhuri, D.	How Much Cr(VI) Is Formed During Extraction of Leather with Phosphate Buffer	119
Chitra, K.	Anaerobic Treatment of Tannery Wastewater with Sulfide Removal and Recovery of Sulfur from Wastewater and Biogas	67
Clara, S.	Transglutaminases as Tanning Agents for the Leather Industry	291
Collighan, R. J.	Transglutaminases as Tanning Agents for the Leather Industry	291
Cook, P.	Collagen Processing	164
Cot, J.	The John Arthur Wilson Memorial Lecture Plaque - Presentation, Acceptance, and Comments	351
Cot, J.	The 45th John Arthur Wilson Memorial Lecture: An Imaginary Journey to the Collagen Moleculefor a Better Understanding of Leather Waste Treatments	322
D'Aquino, A.	Use of Sodium Silicate to Improve the Environmental Aspects of Traditional Chrome Tanning	26
D'Elia, G.	Use of Sodium Silicate to Improve the Environmental Aspects of Traditional Chrome Tanning	26

Didato, D.	Closing Remarks	357
Didato, D.	Opening Remarks	318
Dinesh Kumar, M.	Studies on Treatment of Tannery Wastewater Using a Sequencing Batch Reactor	361
Du, X.	Equilibrium and Kinetics of the Vegetable Tanning Process	191
Dudley, R. L.	The Use of Oxidative Chemicals for the Removal of Hair from Cattle Hides in the Beamhouse	386
Eid, K. A.	Sample Preparation Procedures for Determination of Cr_2O_3 in Leather Samples Using ICP-AES and AAS	273
Eid, M. A.	Sample Preparation Procedures for Determination of Cr_2O_3 in Leather Samples Using ICP-AES and AAS	273
El Askar, E. A.	Sample Preparation Procedures for Determination of Cr_2O_3 in Leather Samples Using ICP-AES and AAS	273
Engelskirchen, S.	The Physico-Chemical Principles of Water-Based Degreasing of Animal Skins	151
Erhardt , R.	The Physico-Chemical Principles of Water-Based Degreasing of Animal Skins	151
Fathima, N.	An Eco-Benign Tanning System Using Aluminum, Tannic Acid, and Silica Combination	73
Ganesh	Biokinetics and Toxicity of Tannery Wastewater Using Batch Reactor System	468
Ganesh, R.	Studies on Treatment of Tannery Wastewater Using a Sequencing Batch Reactor	361
Ganeshjeevan, R.	A Simple and Effective Method for Cr(VI) Analysis in Dyed Leather	12
George, B.	Leather Light Stability/Tannin Antioxidant Characteristics for Leather Made with Veg. Tannins/MUF resins	1
Gotz, O.	Emission from Automotive Leather - State of the Art and a Critical Foresight	416
Griffin, M.	Transglutaminases as Tanning Agents for the Leather Industry	291
Hammond, R.	Opening Remarks	318
Hammond, R	Closing Remarks	357
Hammond, R.	Presentation of the 2004 Alsop Award	355
Hanson, G.	The John Arthur Wilson Memorial Lecture Plaque - Presentation, Acceptance, and Comments	351
Huffer, S.	Sustainable Leather Manufacturing - A Topic with Growing Importance	424
Inaganti, P. for De, S.	Acceptance of the 2004 Alsop Award	356
Jawahar, M.	Instrumental Assessment of Levelness of Dyed Materials	231
Johnson, K.	Presentation of the 2004 Fred O'Flaherty Service Award	353
Jyothi, G.	Instrumental Assessment of Levelness of Dyed Materials	231
Kolomaznik, K.	Retrieval of Biodegradeable Polymer and Value Added Products from Leather Industry Waste Through Process Biotechnology: A Progress Review	449
Krose, H.	Diffusion and Thermodynamic Behavior of Insect Repellant and Suntan Lotion in Automotive Leather Coatings	211
Lamalle, P.	The Physico-Chemical Principles of Water-Based Degreasing of Animal Skins	151
Latona, N. P.	Nondestructive Evaluation of Leather Based on Acoustic Emission	249
Latona, N. P.	Effect of Drying Methods on Chrome-Tanned Leather	205
Lee, J.	Effect of Drying Methods on Chrome-Tanned Leather	205
Li, S.	Transglutaminases as Tanning Agents for the Leather Industry	291
Liao, X.	Equilibrium and Kinetics of the Vegetable Tanning Process	191
Liu, C.-K.	Nondestructive Evaluation of Leather Based on Acoustic Emission	249
Liu, C.-K.	Effect of Drying Methods on Chrome-Tanned Leather	205
Liu, J.	Preliminary Studies on the Thermal Degradation Kinetics of Cattlehide Collagen Fibers	401
Liu, J.	Preliminary Studies on the Thermal Degradation Kinetics of Cattlehide Collagen Fibers	401
Mabrour, J.	Extraction of Proteins from Chrome Shavings with Sodium Hydroxide and Reuse of Chromiumin the Tanning Process	16
Madhan, B.	Role of Phenolics in the Stabilization of Collagen	157
Madhan, B.	Bioaccumulation Route for Secured Recovery and Recoup of Chromium from Tannery Wastewaters	197
Maffia, G.	Collagen Processing	164
Mahdy, A. A.	Sample Preparation Procedures for Determination of Cr_2O_3 in Leather Samples Using ICP-AES and AAS	273

Manoj Kumar, R.	Studies on Treatment of Tannery Wastewater Using a Sequencing Batch Reactor	361
Marcinkowska, E.	Estimation of the Thermal Conductivity of Leather	240
Mariappan, M.	Biokinetics and Toxicity of Tannery Wastewater Using Batch Reactor System	468
Marmer, W. N.	Immunochemical Estimation of the Decorin Core-Protein Content of Preparations of Bovine Decorin	278
Marmer, W. N.	Molecular Weight Distribution and Functional Properties of Enzymatically Modified Commercial and Experimental Gelatins	129
Marmer, W. N.	The Use of Oxidative Chemicals for the Removal of Hair from Cattle Hides in the Beamhouse	386
Marsal, A.	Factors Influencing the Waterproofing Behavior of Retanning-Fatliquoring Polymers. Part II	461
Marsal, A.	Factors Influencing the Waterproofing Behavior of Retanning-Fatliquoring Polymers. Part I	409
Martinelango, K.	Multidimensional Analysis of Magnesium Hydrolysis of Wet-Blue Shavings	256
Messaoudi, A.	Extraction of Proteins from Chrome Shavings with Sodium Hydroxide and Reuse of Chromium in theTanning Process	16
Mozersky, S. M.	Immunochemical Estimation of the Decorin Core-Protein Content of Preparations of Bovine Decorin	278
Mukhopadhyay, S. N.	Retrieval of Biodegradeable Polymer and Value Added Products from Leather Industry Waste Through Process Biotechnology: A Progress Review	449
Nashy, E. H.	Sample Preparation Procedures for Determination of Cr_2O_3 in Leather Samples Using ICP-AES and AAS	273
Naviglio, B	Use of Sodium Silicate to Improve the Environmental Aspects of Traditional Chrome Tanning	26
Oetter , G.	The Physico-Chemical Principles of Water-Based Degreasing of Animal Skins	151
Pabst, G. R.	The Physico-Chemical Principles of Water-Based Degreasing of Animal Skins	151
Palop, R.	Factors Influencing the Waterproofing Behavior of Retanning-Fatliquoring Polymers. Part II	461
Palop, R.	Factors Influencing the Waterproofing Behavior of Retanning-Fatliquoring Polymers. Part I	409
Parry, J.	Transglutaminases as Tanning Agents for the Leather Industry	291
Pizzi, A.	Leather Light Stability/Tannin Antioxidant Characteristics for Leather Made with Veg. Tannins/MUF resins	1
Priya, S. S.	A Simple and Effective Method for Cr(VI) Analysis in Dyed Leather	12
Puentner, Alois G.	Presentation from VESLIC	317
Radhakrishnan, G.	A Simple and Effective Method for Cr(VI) Analysis in Dyed Leather	12
Raghava Rao, J.	Role of Phenolics in the Stabilization of Collagen	157
Raghava Rao, J.	Tanning Studies with Basic Chromium Sulfate Prepared Using Chrome Shavings as a Reductant: A Call for "Wealth from Waste" Approach to the Tanning Industry	170
Raghava Rao, J.	A Bio-Driven Lime and Pickle Free Tanning Paves Way for Greener Garment Leather Production	53
Raghava Rao, J.	An Eco-Benign Tanning System Using Aluminum, Tannic Acid, and Silica Combination	73
Raghava Rao, J.	Underlying Principles in Chrome Tanning: Part 2. Underlying Mechanism in Pickle-less Tanning	82
Raghava Rao, J.	Studies on the Development of Pickle-Less Vegetable Tanning	283
Raghava Rao, J.	Bioaccumulation Route for Secured Recovery and Recoup of Chromium from Tannery Wastewaters	197
Raghava Rao, J.	Development of an Integrated Wet Finishing Process: Manufacture of Garment Leathers	367
Raghava Rao, J.	Mixed Metal Complexes of Zirconium: A Step Toward Reducing Usage of Chromium in Tanning	110
Rai, C. L.	Disintegration of Tannery Sludge by Acoustic Cavitation - An Approach for Sludge Management	457
Rajamani, S.	Anaerobic Treatment of Tannery Wastewater with Sulfide Removal and Recovery of Sulfur from Wastewater and Biogas	67
Ramanujam, R. A.	Biokinetics and Toxicity of Tannery Wastewater Using Batch Reactor System	468
Ramanujam, R. A.	Studies on Treatment of Tannery Wastewater Using a Sequencing Batch Reactor	361
Ramasami, T.	Role of Phenolics in the Stabilization of Collagen	157
Ramasami, T.	Underlying Principles in Chrome Tanning: Part 2. Underlying Mechanism in Pickle-less Tanning	82
Ramesh, T.	Anaerobic Treatment of Tannery Wastewater with Sulfide Removal and Recovery of Sulfur from Wastewater and Biogas	67

Rao, P. G.	Disintegration of Tannery Sludge by Acoustic Cavitation - An Approach for Sludge Management 457
Ravindranath, E.	Anaerobic Treatment of Tannery Wastewater with Sulfide Removal and Recovery of Sulfur from Wastewater and Biogas 67
Rutland, F.	Acceptance of the 2004 Fred O'Flaherty Service Award 354
Saha, L.	Retrieval of Biodegradeable Polymer and Value Added Products from Leather Industry Waste Through Process Biotechnology: A Progress Review 449
Saha, N.	Retrieval of Biodegradeable Polymer and Value Added Products from Leather Industry Waste Through Process Biotechnology: A Progress Review 449
Saha, P.	Retrieval of Biodegradeable Polymer and Value Added Products from Leather Industry Waste Through Process Biotechnology: A Progress Review 449
Saravanabhavan, S.	A Bio-Driven Lime and Pickle Free Tanning Paves Way for Greener Garment Leather Production 53
Saravanabhavan, S.	An Eco-Benign Tanning System Using Aluminum, Tannic Acid, and Silica Combination 73
Saravanabhavan, S.	Studies on the Development of Pickle-Less Vegetable Tanning 283
Scottmann, T.	The Physico-Chemical Principles of Water-Based Degreasing of Animal Skins 151
Seggiani, M.	Use of Sodium Silicate to Improve the Environmental Aspects of Traditional Chrome Tanning . 26
Seltzer, M.	Collagen Processing 164
Shelly, D. C.	Multidimensional Analysis of Magnesium Hydrolysis of Wet-Blue Shavings 256
Shi, B.	Equilibrium and Kinetics of the Vegetable Tanning Process 191

Sivasamy, A.	Disintegration of Tannery Sludge by Acoustic Cavitation - An Approach for Sludge Management 457
Southanthararajan, S.	Anaerobic Treatment of Tannery Wastewater with Sulfide Removal and Recovery of Sulfur from Wastewater and Biogas 67
Sreeram, K. J.	Tanning Studies with Basic Chromium Sulfate Prepared Using Chrome Shavings as a Reductant: A Call for "Wealth from Waste" Approach to the Tanning Industry 170
Sreeram, K. J.	Mixed Metal Complexes of Zirconium: A Step Toward Reducing Usage of Chromium in Tanning 110
Strey, R.	The Physico-Chemical Principles of Water-Based Degreasing of Animal Skins 151
Subramanian, V.	Role of Phenolics in the Stabilization of Collagen 157
Taeger, T.	Sustainable Leather Manufacturing - A Topic with Growing Importance 424
Tahiri, S.	Extraction of Proteins from Chrome Shavings with Sodium Hydroxide and Reuse of Chromium in the Tanning Process 16
Tang, K.	Preliminary Studies on the Thermal Degradation Kinetics of Cattlehide Collagen Fibers 401
Tang, W.	Equilibrium and Kinetics of the Vegetable Tanning Process 191
Taylor, M. M.	Molecular Weight Distribution and Functional Properties of Enzymatically Modified Commercial and Experimental Gelatins 129
Thanikaivelan, P.	Tanning Studies with Basic Chromium Sulfate Prepared Using Chrome Shavings as a Reductant: A Call for "Wealth from Waste" Approach to the Tanning Industry 170
Thanikaivelan, P.	A Bio-Driven Lime and Pickle Free Tanning Paves Way for Greener Garment Leather Production 53
Thanikaivelan, P.	Underlying Principles in Chrome Tanning: Part 2. Underlying Mechanism in Pickle-less Tanning 82
Thanikaivelan, P.	Studies on the Development of Pickle-Less Vegetable Tanning 283
Thanikaivelan, P.	Development of an Integrated Wet Finishing Process: Manufacture of Garment Leathers 367
Tomaselli, M.	Use of Sodium Silicate to Improve the Environmental Aspects of Traditional Chrome Tanning . . .26
Triboulot, M. C.	Leather Light Stability/Tannin Antioxidant Characteristics for Leather Made with Veg. Tannins/MUF resins 1
Umameheswari, B.	Anaerobic Treatment of Tannery Wastewater with Sulfide Removal and Recovery of Sulfur from Wastewater and Biogas 67
Unni Nair, B.	Role of Phenolics in the Stabilization of Collagen 157
Unni Nair, B.	Tanning Studies with Basic Chromium Sulfate Prepared Using Chrome Shavings as a Reductant: A Call for "Wealth from Waste" Approach to the Tanning Industry 170
Unni Nair, B.	A Bio-Driven Lime and Pickle Free Tanning Paves Way for Greener Garment Leather Production 53
Unni Nair, B.	An Eco-Benign Tanning System Using Aluminum, Tannic Acid, and Silica Combination 73

Unni Nair, B.	Underlying Principles in Chrome Tanning: Part 2. Underlying Mechanism in Pickle-less Tanning	82
AUnni Nair, B.	Studies on the Development of Pickle-Less Vegetable Tanning	.283
Unni Nair, B.	Bioaccumulation Route for Secured Recovery and Recoup of Chromium from Tannery Wastewaters	.197
Unni Nair, B.	Development of an Integrated Wet Finishing Process: Manufacture of Garment Leathers	.367
Unni Nair, B.	Mixed Metal Complexes of Zirconium: A Step Toward Reducing Usage of Chromium in Tanning	.110
Venba, R.	Instrumental Assessment of Levelness of Dyed Materials	.231
Vitolo, S.	Use of Sodium Silicate to Improve the Environmental Aspects of Traditional Chrome Tanning	26
Wang, F.	Preliminary Studies on the Thermal Degradation Kinetics of Cattlehide Collagen Fibers	.401
Wildermuth, R. J.	Immunochemical Estimation of the Decorin Core-Protein Content of Preparations of Bovine Decorin	.278
Younssi, S. A.	Extraction of Proteins from Chrome Shavings with Sodium Hydroxide and Reuse of Chromium in the Tanning Process	16

SUBJECT INDEX

Abrasion resistance . . . 114
Acoustic cavitation of tannery sludge . . . 457ff
Acoustic Emission, theory and instrument to measure . . . 253
Acrylic monomers . . . 410
Activated sludge process . . . 468
Advertising rates and requirements . . . 5
Alkaline hydrogen peroxide unhairing process . . . 386ff
Alpha collagen chains . . . 327
Aluminum, tannic acid, silica tanning system . . . 73ff
ALCA and Industry News
- Acceptance of the 2004 Alsop Award, Prasad Inaganti for Satyendra De . . . 356
- Acceptance of the 2004 Fred O'Flaherty Service Award, Frank Rutland . . . 354
- ADI Group USA Announcement . . . 221
- ALCA Office Move . . . 222
- ALCA's 2004 Budget . . . 183
- ASTM Announcement . . . 512
- ASTM Signs MOU with China . . . 476
- Atlas News Release . . . 39
- BASF Announcements . . . 514
- Bayer Chemicals News Releases . . . 185, 270
- Business Meeting at the 100th Convention . . . 432
- Closing Remarks at the 100th Convention, Dean T. Didato and Rodney Hammond . . . 357
- Council Meeting June 16, 2004 . . . 430
- Council Meeting June 20, 2004 . . . 440
- Council Meeting March 26, 2004 . . . 302
- Council Meeting October 24, 2003 . . . 178
- Dr. Robert M. Lollar Prize Paper Award . . . 442
- Egyptian International Modern Exhibition . . . 513
- GST AutoLeather Announcements . . . 39, 143, 221, 394, 441, 476
- Introduction of the John Arthur Wilson Memorial Lecturer, Eleanor Brown . . . 321
- John Arthur Wilson Lecturer, Jaume Cot . . . 96
- Lanxess Announcement . . . 512
- Lanxess Starts Operating Independently . . . 394
- Le Cuir a Paris . . . 38
- Leather district in Egypt . . . 98
- Meet in Africa . . . 308
- Obituary - David Simek . . . 513
- Obituary - Ernst Tschipper . . . 97
- Obituary - Joseph Naghski . . . 38
- Obituary - Robert F. Welch . . . 441

Obituary - Roger A. Pinard . . . 143
Opening Remarks at 100th Convention, Dean Didato and Rodney Hammond . . . 318
Organizational Announcement - Stahl . . . 270
Presentation from VESLIC, Alois G. Puentner . . . 317
Presentation of the 2004 Alsop Award, Rodney Hammond . . . 355
Presentation of the 2004 Fred O'Flaherty Service Award, Kenneth Johnson . . . 353
Rohm and Haas News Release . . . 185
SIMAC 2004 . . . 308
Surface-Characterization Software . . . 394
Tanning-Tech, Bologna 2003 . . . 97
The John Arthur Wilson Memorial Lecture Plaque - Presentation, Acceptance, and Comments, Eleanor Brown, Jaume Cot, and Gary Hanson . . . 351
Vice-President Elect, Change in . . . 221
XXVIII IULTCS International Congress . . . 184
Anaerobic treatment of tannery wastewater . . . 67ff
Anti-bovine decorin . . . 280
Antioxidant effectiveness of vegetable tannins . . . 7 - 9
APE (Alkylphenolethoxylates) . . . 151, 425
ARAVINDHANN RATHINAM - Biography . . . 95, 142
Area retention, impact on of drying method . . . 208-209
Aspergillus . . . 497
Athletic shoes . . . 488
Atomic force micrographs of collagen fibers . . . 165, 167 - 168
Atomic force micrographs of modified commercial gelatin . . . 138
Automotive leather coatings
properties of . . . 212
sorption of DEET and suntan lotion by . . . 217
resistance to insect repellant and suntan lotion of . . . 211ff
saturation levels of DEET and suntan lotion in . . . 216
diffusion coefficients of DEET and suntan lotion in . . . 217
thermodynamic behavior of toward DEET and suntan lotion . . . 218
Automotive leather, odor . . . 417
AYYASAMY, THEVANAN - Biography . . . 393
Bally test . . . 413, 463, 465
BASARAN, BAHRI - Biography . . . 510
Basic chromium sulfate preparation using chrome shavings as reductant . . . 170ff
Basic chromium sulfate preparation with chromium-loaded seaweed . . . 201
Binding energies of amino acids with phenolic molecules . . . 161
Biodegradation of leather industry waste . . . 451 - 455
Biodegradeable foil . . . 455
Biodegradeable polymer . . . 452-453
Biogas from chrome shavings/chrome sludge . . . 453, 457
Biogas from tannery wastewater . . . 67
Biokinetic constant for tannery wastewater . . . 469
Biological Oxygen Demand (BOD) . . . 54, 290, 365, 469-473
BIRBIR, MERAL - Biography . . . 510
BITLISLI, BEHZAT ORAL - Biography . . . 510
Boric acid as preservative in wet salting process . . . 496
Bovine serum albumin . . . 281
BREITSAMER, MICHAEL - Biography . . . 429
Brown seaweed for bioaccumulation of chromium from tannery wastewater . . . 199
BURCHAM, LOYD J. - Biography . . . 220
Burst strength . . . 62, 77
C-terminal telopeptides
molecular modeling of . . . 376ff
energy favorable conformations of . . . 379
lateral views of microfibrils . . . 380
end-on views of microfibrils . . . 381
potential electrostatic interactions with triple helices . . . 383
Capillary zone electrophoresis . . . 259

Catechol . . . 158
Chemical Oxygen Demand (COD) . . . 54, 58, 71, 80, 92, 117, 174, 291, 365, 425, 459, 469-473
Chestnut . . . 5 - 10
China market for automobiles, cell phones, steel, oil, and cement . . . 492
Chinese leather industry development . . . 492
CHITRA, K. - Biography . . . 95
Chlorides in tannery wastewater . . . 291
Chrome cake composition . . . 21
Chrome Shavings
  applications of protein hydrolysate produced from . . . 346 - 348, 453, 455
  dechromation of . . . 20, 341 - 342
  digestion with sodium hydroxide . . . 17
  enzymatic process for degradation of . . . 340, 453
  magnesium hydrolysis of . . . 258ff, 341
  physical-chemical characteristics of . . . 20
  process parameters for hydrolysis of . . . 106 - 108
  production of biogas from . . . 453, 457
  protein hydrolysate from . . . 104
  recycling of . . . 170ff
  reuse of chromium from . . . 21 - 24
  use of to reduce Cr(VI) to Cr(III) . . . 173
Chrome tanned collagen fibers, thermal degradation of . . . 405
Chrome-tanning alternatives
  pretanning agent based on glutaraldehyde . . . 427
  combination of aluminum, tannic acid, and silica . . . 73ff
Chrome-loaded seaweed, desorption of chromium from . . . 201
Chromium distribution in wet-blue sides . . . 88
Chromium oxide (Cr_2O_3) determination in leather
  acid digestion procedure for . . . 277
  ashing and fusion procedure for . . . 277
  by conventional procedure . . . 277
  by flame atomic absorption spectrometry . . . 278
  by inductively coupled plasma atomic absorption spectrometry (ICP-AES) . . . 278
  effect of preparation procedure on precision . . . 278
Chromium species present during tanning . . . 85-87
Chromium uptake of leather . . . 85
Chromium(VI)
  Determination of in dyed leather . . . 12ff
  DIN 53314 method for determining . . . 15
  effect of Chromium(III) level on observed value . . . 125
  effect of extractant on observed value . . . 123
  effect of extraction time on observed value . . . 123
  effect of fish oil fatliquor on observed value . . . 126
  effect of pH of extracting solution on observed value . . . 124
  formation after extraction . . . 124
  issues in analyzing for . . . 119 - 120
  IUC method for determining . . . 15
  oxidation of Chromium(III) to . . . 340 - 341
  recovery from tannery effluents . . . 346
Chromium, reuse of from chrome shavings . . . 21 - 24
Circular dichroic spectra of collagen solutions . . . 160
CLARA, SANTIAGO - Biography . . . 303
Collagen
  alpha chains in . . . 327
  amino acid sequences in . . . 337 - 338, 377
  ball milling of, effect on structure . . . 168
  biosynthesis of . . . 323 - 330
  bovine type I . . . 164, 300, 376ff

circular dichroic spectra of solutions of .160
denaturation temperature of .298, 299, 333
description of .332 - 340
fibril structure of .167
interaction with phenolic molecules .161
intracellular and extracellular events to form fibrils of .327
molecular modeling of .377
molecular weight distribution of milled, by SDS-PAGE .168
outstanding features of .335
peptide model with catechol .162
precursor of .329
primary structure of .323
properties and types of .335 - 336
self-assembly of fibrils into .328
stabilization of .157ff
staggered arrangement of molecules of .329
thermal degradation kinetics of un-tanned and tanned fibers of .401ff
Collagenase .299
Collagenase, stability of rat tail tendon fibers against .160
COLLIGHAN, RUSSELL - Biography .303
Color evaluation of double-face leather .498 - 499
Color of leather .370
Color strength, dependence on unhairing method .391
Color uniformity .233ff
Color variation of leather, an equation predicting it as a function of time of UV exposure .5
Colored leathers, chromium(VI) detection in .15
Coppertone, composition of .213
Corfam .488
COT, JAUME - Biography .229
D'AQUINO, ARIANNA - Biography .37
D'ELIA, GABRIELE - Biography .37
Dechroming process .
Decolorizing extracts from dyed leather .13
Decorin core protein, immunochemical estimation of .283 - 284
DEET, chemical structure of .212
Degreasing
agent .426
of pig skins .155
of sheep skins .155
physico-chemical principles of .154
recipes for .155
steps in .151 - 152
water based .151ff
Denaturation temperature .298, 299, 333
DIN 53314 method for chromium(VI) determination .15
Disintegration of tannery sludge .457ff
DNA .324 - 325
DOSS, M. JINANDRA - Biography .269
Drying methods, impact on leather properties .205ff
Drying of chrome-tanned bovine leather .205ff
DU, XIAO - Biography .220
Dyeing and fatliquoring .412

Ecological challenges in leather manufacture .....424 - 425
Ecology 489
EDAX micrographs of leathers tanned with chrome-zirconium complexes 114
EDAX spectrum of conventional and pickle-less chrome-tanned leather 90
EDX spectrum of silicate/chrome tanned leather 30
ELISA procedure for estimation of Decorin core protein 282
Elongation at break 62, 77, 92, 114, 175, 203, 209, 289, 371
Emission chamber test 419
Emulsifiers and co-emulsifiers mixture to emulsify grease .....153 - 154
ENGELSKIRCHEN, SANDRA - Biography 177
Enzyme
alkaline protease from Paecilomyces lilacinus .....103 - 105
collagenase 299
collagenase, stability of rat tail tendon fibers against 160
commercial proteolytic enzyme (Alcalase) 454
lipase activity substrates 498
opening up of fiber bundles with 55
process for treatment of chrome shavings with 103ff, 453
protease activity substrates 498
savinase 299
solid-state fermentation process for production of bulk quantities of 103ff, 454
subtilisin carlsberg 299
trypsin 299
α-amylase 55
Equilibrium absorption capacity of tannins on leather, prediction by pseudo-second-order kinetics 195
ERHARDT, RAINER - Biography 177
ESR curves for treated leather 9, 10
Fatliquoring auxiliaries, influence on waterproofing 412-414
Fatty alcohol esters with acrylic acid 410
Fiber bundles of collagen 166
Fitch method for computing thermal conductivity .....243 - 244
Florisil 13
Flynn-Wall-Ozawa method for thermal degradation kinetics 402
Fogging chemicals .....418 - 419
Fogging substances emitted by automotive leather .....420 - 421
Fogging, dependence on sampling location on the hide 423
Formaldehyde emission from automotive leather .....417 - 418
Fracture energy, correlation with Acoustic Emission 254
Free-of-chrome leather intermediate .....426 - 427
Fullness of leather 63, 77, 115, 175, 202, 289, 373
Fungi .....494 - 498
GANESH, R. - Biography 393
Gelatins
adhesive properties of .....136 - 137
functional properties .....135 - 136
molecular weight distribution of by SDS-PAGE .....132 - 133
physical properties of .....133 - 135
water absorption of .....137 - 138
General appearance of leather 63, 77, 115, 175, 202, 373
Glass transition temperature of leather coatings 212
Glutaraldehyde tanned collagen fibers, thermal degradationof 406
Glycosaminoglycans .....330 - 332

Goat upper leathers, visual assessment of levelness 236
Goat-skin tanning 22, 23, 198
GOTZ, OTTMAR - Biography 429
Grain break .....209 - 210
Grain crack strength 62, 77, 92, 175, 289, 371
Grain distension 35
Grain smoothness 63, 77, 115, 175, 202, 288
Grain tightness 63, 77, 115, 175, 202, 288
GRIFFIN, MARTIN - Biography 303
Growth rate of human, bovine, and sheep/goat population 491
Halophilic bacteria .....494 - 498
Headspace testing, static and dynamic .....419 - 422
Heat of adsorption of tannins onto hide powder 194
HHL crosslink of mature skin collagne 382
HUFFER, STEPHAN - Biography 429
Human population growth rate 491
Hydrophobic products, influence on waterproofing 413
Hydrothermal stability 159
Hydroxylysine and hydroxyproline 327
Initial strain energy 208
Interfacial tension of surfactants, relation to degreasing 153
IUC 18 method for chromium(VI) determination 15
John Arthur Wilson Lecture 322ff
JYOTHI, G. - Biography 269
KARAVANA. HUSEYIN ATA - Biography 510
KOPPANY, E. JOHN - Biography 510
KROSE, HANS - Biography 220
KUMAR, M. DINESH - Biography 393
KUMAR, R. MANOJ - Biography 393
LAMALLE, PHILLIPPE - Biography 177
Larch tannins 195
Leather
- an equation predicting color variation of as a function of time of UV exposure 5
- detection of chromium(VI) in colored 15
- double-face 494ff
- emissions from automotive 416ff
- free-of-chrome .....426 - 427
- light stability of dyed 1ff
- organoleptic properties of 63, 77, 115, 175, 202, 289, 373
- softness of 465
- waterproofing of 409ff, 461ff
- wet finishing process for manufacture of garment 367ff

Leather industry
- changes in the types, quantities, and origins of raw materials 486 - 487
- changes in 485
- future leaders in 492
- geopolitical factors impacting 488
- labor and social security costs 489
- market trends and customer demands 487
- scientific discoveries impacting 486
- size 485
- transfer and relocation of 490

waste 449ff
winners and losers in 490
LEE, JOSEPH - Biography 220
LI, XIAOLING - Biography 303
LIAO, XUEPIN - Biography 220
Lightfastness 290
LIU, JIE - Biography 429
LIU, JINGLONG - Biography 429
Lypolytic bacteria 497
Maeser test 413, 463, 465
MAHDY, AHMED - Biography 303
MARIAPPAN, M. - Biography 475
MARTINELANGO, KALYANI - Biography 269
Mean color difference .....234 - 235
Mimosa .....5 - 10, 192 - 194
Molecular modeling 159, 377
Molecular weight distribution of gelatins by SDS-PAGE .....132 - 133
Molecular weight distribution of milled collagen by SDS-PAGE 168
Monod kinetics 469
MUKHOPADHYAY, S. N. - Biography 474
NAVIGLIO, BIAGIO - Biography 37
Neutralization-anionization process 411
Neutralization-anionization, influence on waterproofing 413
NMP (N-methyl-2-pyrrolidone) 425
Non-destructive evaluation of mechanical properties of leather by Acoustic Emission 251ff
NPE (Nonylphenolethoxylates) 151, 425
OETTER, GUENTER - Biography 177
Opening up of fiber bundles 55
Organo-nitrogenous fertilizer 455
PABST, GUNTHER R. - Biography 177
Paecilomyces 497
PALOP, RAMON - Biography 429
PARRY, JAMES - Biography 303
Penicillium 497
Physical properties of leather
abrasion resistance 114
burst strength 62
dependence on unhairing method 389, 391
Elongation at break 62, 77, 92, 114, 175, 203, 209, 289, 371, 389, 391
grain crack strength 62, 77, 92, 175, 371
non-destructive testing of by Acoustic Emission 251ff
softness 63, 77, 115, 465
tear strength 62, 77, 92, 114, 175, 203, 289, 371
tensile strength 62, 77, 92, 114, 175, 203, 289, 300, 371, 389, 391
toughness index 209, 389, 391
Young's modulus 208
Pickle-less chrome tanning, benefits of 92
Pickle-less chrome tanning, mechanism of 82ff
Pickle-less vegetable tanning 285ff
PRIYA, S. SHANMUGA - Biography 37
Procollagen modifications in synthesis of collagen 326
Propeptides .....327 - 328

Protein hydrolysate from chrome shavings
applications of .348, 453, 455
characteristics of .21
characterization by Isoelectric Focusing .261
characterization of by Capillary Zone Electrophoresis .261 - 262
characterization of with Mass Spectrometry .265 - 266
characterization of with reverse phase HPLC .264 - 265
characterization of with SDS-PAGE .260 - 261
Protein release from tannery sludge .459
Proteoglycans .332
Proteolytic bacteria .497
Pseudo-second-order adsorption of tannins on hide powder .193, 195
Pyrogallol .158
Quarter stagger theory .329
Quebracho .5 - 10
RAI, C. LAJAPATHI - Biography .474
RAJAMANI, S. - Biography .95
RAMANUJAM, R. ALWAR - Biography .393
RAMESH, T. - Biography .95
RAO, P. G. - Biography .475
Rat tail tendon fibers, shrink temperature .159
RAVINDRANATH, E. - Biography .95
Recyclable chromium .454
Regulatory restrictions .424, 425 - 426
Relative unlevelness index .235
Resorcinol .158
Retanning agents, influence on waterproofing .463
Retanning process, influence on waterproofing .463 - 464
Retanning-Fatliquoring polymer production .410
Retraction of skins and hides from increasing temperature .22, 23
RNA .324 - 326
SAHA, PETR - Biography .474
SARAVANABHAVAN, SUBRAMANI - Biography .95
SARI, OZCAN - Biography .510
Satava-Sestak method for thermal degradation kinetics .402
Savinase .299
Scanning Electron Microscopy of
aluminum, tannic acid, aluminum tanned leather .79
chrome-tanned leather .79, 90, 202
colloidal silica agglomerate .30
crude and milled collagen .166 - 167
crust leather cross section .61, 372
crust leather grain surface .372
pickled hide .30
pickle-less chrome tanned leather .90
sections of leather .34, 35
silicate-stabilized hide .30
the cross section of chrome-tanned leathers .174
the cross section of vegetable-tanned leathers .291
the grain surface of chrome-tanned leather .173
the grain surface of conventional and pickle-less chrome tanned leathers .89
the grain surface of vegetable-tanned leather .291

SDS-PAGE
molecular weight distribution of gelatin by .132 - 133
molecular weight distribution of milled collagen by .168
of collagen hydrolysate from chrome shavings .260 - 261
SEGGIANI, MAURIZIA - Biography .37
Sheep skin preserved by wet salting, composition of .496
SHELLY, DENNIS C. - Biography .269
Shrinkage temperature of
aluminum/tannic acid/silicate tanned leather .76 - 77
chrome-tanned leather .61, 88, 201
chromium/zirconium tanned leather .113, 116
silicate/chrome tanned leather .31
tannic acid tanned leather .76
tannic acid/aluminum tanned leather .76
wet blue sides, dependence on unhairing method .389, 390
Sivasamy, A. - Biography .474
Smoothness .373
Sodium silicate tanning .26ff
SOFTMAN, THOMAS - Biography .177
Softness of leather .63, 77, 115, 175, 202, 465
Softness, determination by compressibility measurements .57, 61, 75, 115, 287, 371
Sole leather .487
Solid-state fermentation process for bulk enzyme production .103, 454
Spent tanning liquor composition .174
Submissions for the Technical Program at the 100th ALCA Convention .227
Subtilisin carlsberg .299
Sulfated glycosoaminoglycan .280
Sulfide removal from tannery wastewater .67ff
Sulfide-free unhairing .386ff
Sulfonated melamine-urea-formaldehyde resin .2
Surfactants for degreasing .155
SUTHANTHARARAJAN, R. - Biography .95
TANG, KEYONG - Biography .429
TANG, WEI - Biography .220
Tannery sludge .453, 457ff
Tannery waste
anaerobic digestion of .67ff
BOD of .54, 58, 469-473
COD of .54, 58, 71, 92, 425, 459, 469-473
digestion of .20
disintegration of .457ff
formaldehyde crosslinking of chromed .342
nature of .451
pollutants in .35
sources and characteristics of .449
Tannery wastewater
BOD of .362
characteristics .of 68
chlorides in .291, 373
chromium in .373
COD of .291, 362, 373
contribution of wet finishing to .367

dechromation of .341
recovery of chromium from .197ff
reduction of BOD in .364 - 365
reduction of chromium content by exposure to seaweed .200
reduction of COD in .364 - 365
specific rate constant of substrate uptake from .472
sulfide removal from .68 - 71
total solids in .291, 373
total suspended solids in .362, 365
toxicity of .469
treatment of with a Sequencing Batch Reactor .361ff
Tannic acid .76, 192 - 194
Tannin adsorption on hide powder, Freundlich model of .192
Tanning
eco-friendly process .53ff
techno-economic viability of eco-friendly process .62 - 63
with chromium- zirconium complexes .110ff
with combination of aluminum, tannic acid, and silica .73ff
with combination of sodium silicate and chromium .26ff
Tear strength .62, 77, 92, 114, 175, 203, 289, 371
Tear strength, correlation with Acoustic Emission .255
Tearing load .35
Techno-economic viability of wet finishing process .373 - 374
Tensile strength .35, 62, 77, 92, 114, 175, 203, 289, 300, 371
The 45th John Arthur Wilson Lecturer - Jaume Cot .229, 321
The 45th John Arthur Wilson Memorial Lecture .322ff
Thermal conductivity of insulating materials .248
Thermal conductivity of leather .242ff
Thermal conductivity, measurement of .244 - 246
Thermal degradation activation energy of un-tanned and tanned collagen fibers from cattlehide .405 - 407
Thermal degradation kinetics of collagen fibers .401ff
Thermogravimetric analysis of un-tanned and tanned collagen fibers from cattlehide .405 - 407
Toggle drying .208 - 209
TOMASELLI, MICHELE - Biography .37
Total dissolved solids in tannery wastewater .53, 58, 67, 117, 469, 470
Total solids in spent tan liquor .291
Total suspended solids in tannery wastewater .469, 470
Toughness index, impact on of drying method .209
Transglutaminase .129 - 130, 293ff
TRIBOULOT, M. C. - Biography .37
Trypsin .299
Ultrasonic homogenizer .458
UMAMAHESWARI, B. - Biography .95
Unhairing of cattle hides
sulfide-free .386ff
with alkaline hydrogen peroxide/1-cyanoguanidine .387
with alkaline hydrogen peroxide/KOCN .387
with alkaline hydrogen peroxide/urea .387
with sodium perborate .387
Unhairing process .55, 386ff
Upper leather, bovine .26ff
Vacuum drying .208 - 209

Vegetable tanning
equilibrium and kinetics of .191
pickle-less .285ff
with chestnut .5 - 10
with mimosa .5 - 10
with quebracho .5 - 10
VENBA, R. - Biography .269
Veslic dry rub fastness .214
VITOLO, SANDRA - Biography .37
VOC's emitted by automotive leather .420 - 421
VOC's, dependence on sampling location on the hide .423
WANG, FANG - Biography .429
WANG, QUANJIE - Biography .429
Water repellency of leather as a function of time .466
Waterproofing of leather, history of .409
Waterproofing polymers .410
Wet blue leather composition .173
Wet finishing process for manufacture of garment leather .367ff
YASA, IHSAN - Biography .510
Young's modulus .208
Young's modulus, correlation with Acoustic Emission .255
α -amylase .55
